

McClatchy-Marist Poll
Colorado Survey
October 1, 2010

Nature of the Sample: 822 Colorado Registered Voters

This survey of 822 Colorado registered voters was conducted on September 26th through September 28th. Registered voters were interviewed by telephone in proportion to the voter turnout in statewide elections in each county. Telephone numbers were selected based upon a list of telephone exchanges from throughout the state. The exchanges were selected to ensure that each region was represented in proportion to its population. In an effort to increase coverage, this land-line sample was supplemented by respondents reached through random dialing of cell phone numbers. The land-line and cell phone samples were then combined. Results are statistically significant within ± 3.5 percentage points. There are 537 likely voters. The results for this subset are statistically significant within ± 4.5 percentage points. The error margin increases for cross-tabulations.

		Colorado Registered Voters		
		Do you approve or disapprove of the job Barack Obama is doing in office as president?		
		Approve	Disapprove	Unsure
		Row %	Row %	Row %
Colorado Registered Voters		40%	54%	6%
